

LABORHITS

LLG Syringe Filter

Sterile or non sterile

- Housing in Polypropylene or Acryl
- Multifunctional Syringe filters equipped with Female LuerLock/Male Luer Lock or Male Luer Slip connections for different applications
- Sterile products single packed in individual hard blister
- Superior pressure stability
- Colour coding and printed description for easy identification

Especially designed to provide efficient filtration of a broad variety of fluids, solvents, aqueous or inorganic solutions.

Our syringe filters cover most applications in HPLC, pharmaceutical, environmental, biotechnology and food and beverage testing laboratories.

Sterile

Membrane	Pore size µm	Diam. mm	Colour	PK	Cat. No.
CA	0.20	13	blue	50	9.055 510
CA	0.20	25	blue	50	9.055 511
CA	0.45	13	yellow	50	9.055 512
CA	0.45	25	yellow	50	9.055 513

Non sterile
